at The Center for Women's Health and Human Rights**

June 4-6, 2015, Suffolk University, Boston, USA

Guidelines for Submission

Complete only the section that applies. Each submission requires a new submission form. Once you choose "SUBMIT" the submission cannot be retrieved or altered. Please save draft versions of this file as you are working.

1. **Paper proposals** are for individual oral presentations of approximately 15 minutes duration with 5 additional minutes for discussion that will be grouped thematically in sessions as space allows. Chairpersons will be appointed by the program committee. There will be no discussants. Handouts are encouraged.
2. **Panel / symposium proposals** are theme-based oral sessions lasting one hour and a half. Four papers, each 15 minutes in duration will be presented, followed by a final 30 minutes for discussion. A discussant introduces the presenters and encourages interchange between presenters and participants. The discussant summarises and comments for 10 minutes of the 30 minutes designated for discussion. We encourage submissions of organised panels complete with theme/topic, discussants, paper presenters and order of the talks. Handouts are encouraged.
3. **Poster presentations** are formats that allow for extended discussion of the presentation with the author(s). Posters are prepared with information that can be read from a short distance (two or three feet). Handouts are encouraged.
4. **Workshops** are intended as training and/or information sessions. Submissions should include the workshop title, the problem or expertise addressed, an outline of the proposed content, any specific "take-aways" participants should expect, and the time allotment desired.
5. **Exhibit / Performance / Screening.** We welcome innovative presentations that do not necessarily fit the conventional academic formats, such as art exhibits, performances, film screenings, or other types of presentations. Please describe what you would like to do and how much time you would like to have (we may not be able to accommodate desired time slots and allocations, but please let us know).
